

Dear Parents, Guardians and Members of the School Community,

The New Jersey's School Performance Reports provide families, educators and the public a picture of overall school performance. As part of New Jersey's accountability system, the performance reports provide information across many elements, including schoolwide academic achievement and progress, demographics, school climate, chronic absenteeism, and college and career readiness.

The School Performance Reports were developed with, and are continually improved by, the feedback from stakeholders like you. Here are some of the improvements for the 2016-17 School Performance Reports based on feedback:
