

Haddon Heights School District

2017-2018 SCHOOL YEAR

Student Enrollment Policies

Tier 1 students are students who are enrolled in a NJ public school in their resident school district during the time of application and for the entire year (2016-17) immediately preceding enrollment in a choice district. If a student moved during the school year and attended the resident public school of his/her old district of residence, he/she is also considered Tier 1. Choice districts must first fill their available seats with Tier 1 students. If the number of Tier 1 applications exceeds the number of choice seats available, the choice district must hold a lottery to randomly select students. Charter school students are considered to be Tier 1.

Tier 2 students include NJ residents who have not attended their resident public school for the entire year immediately prior to enrollment in the desired choice district and do not otherwise meet the requirements for Tier 1. This would include students who have been attending public school outside their districts of residence or private school.

Choice districts are not obligated to accept Tier 2 students. If a choice district accepts Tier 2 applicants, they may do so only after all of the qualified Tier 1 applicants have been accepted. If the number of Tier 2 applications exceeds the number of choice seats available, the choice district must hold a lottery to select of students.

Enrollment preference may also be given to students in the following circumstances: 1) students with siblings enrolled in the choice district; 2). choice students who will have completed the terminal grade of the sending district (i.e., students who attend a choice district with grades that terminate before 12th grade and with a natural progression to the desired choice district); and 3). resident students of the choice district who move during the school year and want to remain in the choice district the following year. Your student’s enrollment preference status will be determined from the information you provide in the application.
